

# 00 Before You Get Started

Written By: Eric Sutter

## Step 1 — Set up a work-related Gmail account.

- Go to [google.com](https://google.com) and create a gmail account there
  - ⓘ This will be used to connect to the Google PlayStore for updating and using applications provided
  - ⚠ **DO NOT connect a personal Gmail account to the device. You MUST create a work related one**

## Step 2 — GS Mobile URL

- Locate and remember your GS Mobile URL. You will use it on the device and create a shortcut for it.
  - ⓘ If you do not have a GS Mobile URL please check in with you Global Shop representative.

## Step 3 — Network Connection

- Find and remember which SSID (Wi-Fi) you should connect to
  - ⓘ You will need the password so be sure you know it.
