What comes in the box with your Mini Pc, and how to set it up.

Written By: Eric Sutter

Step 1 — Initial Unboxing

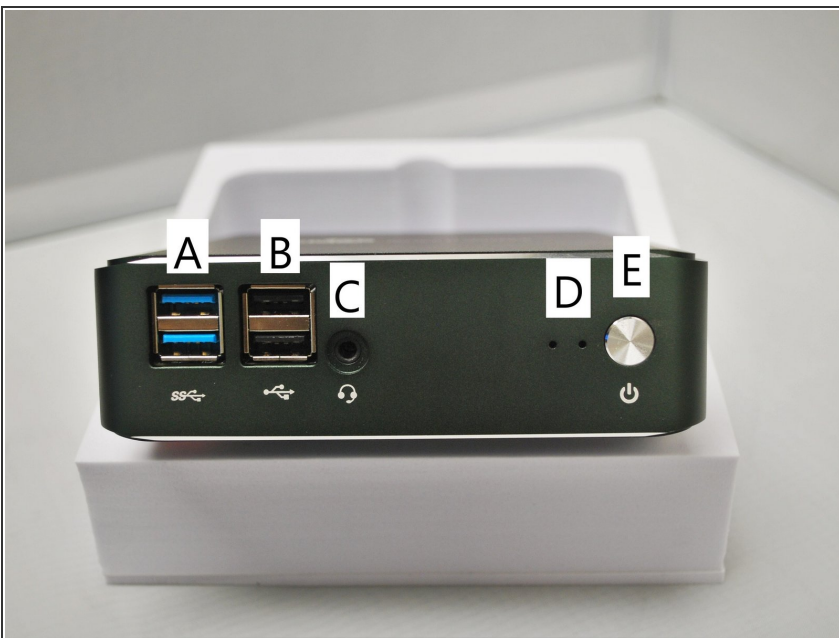

- The box should contain:
 - A: the mini PC inside a foam insert;
 - B: one mounting plate;
 - C: one power cable & ac adapter;
 - D: one HDMI cable;
 - E: one thin, flat cable;
 - F: one bag of four small screws, & one bag of 10 various screws.

Step 2 — Plugging in and setting up

- Plug the power cable into the AC cable.
- Connect the power cable to the back of the computer (green arrow).
- Connect the HDMI cable to the back of the computer (blue arrow).
- Connect the power cable into an outlet, and the HDMI cable into your monitor.
- Connect your mouse and key board, and power up the computer by clicking the silver power button once.

Step 3 — Front Ports Breakdown

- A: Two USB 3.0 "SuperSpeed" ports.
- B: Two USB 2.0 ports.
- C: Auxiliary cable port for headphones, earbuds, or speakers.
- D: Indicator LEDs. The left LED is the bot indicator, and the one on the right is the harddrive indicator.
- E: Power button.

Step 4 — Rear Ports Breakdown

- A: A/C power port.
- B: Ethernet port.
- C: Two USB 3.0 "SuperSpeed" ports.
- D: HDMI port.
- E: DisplayPort port.
- F: USB type C port.
