

2- GSS MOBILE 2 Basic Operation and Features

A basic operation guide for the GSS MOBILE 2.

Written By: Emilio Vallejos

When the mobile computer is fully charged, press the Power key for three seconds to turn on the mobile computer. A locked screen will appear. Slide the lock button  in either direction to unlock the screen.

Step 1 — Home Screen

When the mobile computer is fully charged, press the Power key for three seconds to turn on the mobile computer. A locked screen will appear. Slide the lock button in either direction to unlock the screen.

The Home Screen appears showing a status bar, shortcut icons, and a dock containing an All Apps button. The home screen allows multiple pages for placing shortcut icons and widgets. You may customize the home screen according to your preferences.

Step 2 — Customizing Home Screen

ADD APPLICATION SHORTCUT TO HOME SCREEN

- 1) On the home screen you would like to customize, tap All Apps.
- 2) Locate the application to add, tap on and hold the application icon.
- 3) The home screen will appear. Drag the application icon to your preferred position and release to have it placed.

ADD WIDGET TO HOME SCREEN

- 1) Tap and hold any empty spot on the home screen.
- 2) The current layout will dim, and the available widgets related to home screen appear on the bottom. Tap Widgets to enter the widget selection list.
- 3) In the widget selection list, scroll to locate your desired widget.
- 4) Tap and hold the widget until the home screen layout appears. Drag the widget to your preferred position and release to have it placed. For a setting shortcut, you will have to select a specific setting from the shortcuts list.

ARRANGE THE SHORTCUTS AND WIDGETS ON HOME SCREEN

- 1) To move or remove a shortcut/widget, on the home screen you would like to customize, tap and hold it to enter layout edit mode. A floating option 'X Remove' will appear on top of the screen, to which you can drag the unwanted shortcut to remove it. Drag the icon to the preferred position and release it to have it placed.

- 2) To resize a widget, tap and hold it until a white frame appears. Tap and drag a white dot to re-size the widget.

Step 3 — Adding and Removing New Folder

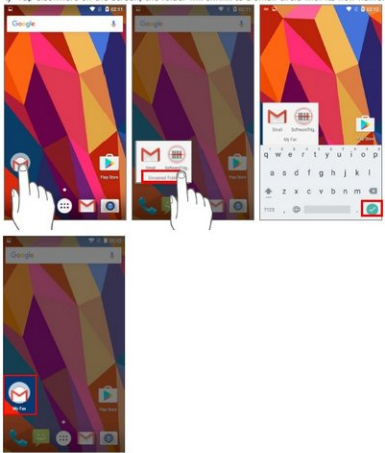

NAME A FOLDER

1) Tap the folder you would like to name.

2) The folder will expand from a small circle to a full rectangle to show all the shortcuts in it. Tap "Unnamed Folder" and edit the folder name.

3) Tap Done on the on-screen keyboard.

4) Tap elsewhere on the screen, the folder will shrink to a small circle with its new name.

REMOVE FOLDER

1) Tap and hold the folder you would like to remove.

2) Drag the folder to the top of the screen where the option "X Remove" is located.

Note:

Please note that, when you remove a folder, the shortcuts contained in it will be removed as well.
